199     right: 0;
200 }
201
202 #featured-post-3 .entry-time {
203     top: 180px;
204 }
205
206 #featured-post-2 .entry-time {
207     top: 50px;
208 }
209
210 .entry-comments-link {
211     margin-left: 20px;
212 }
213

```

I would use .home-top and .home-middle for these 2, rather than selecting on the featured post # since the date styling is really section-specific more than post-specific. This is a nitpick because it's quite possible that #featured-post-3 will always be inside .home-top the way the Wordpress theme is written.

use %

```

214 .entry-content {
215     margin-top: 14px;
216 }
217
